### Explanatory Notes

(This does not form part of the notification, but is intended to indicate its general purport.)

The existing Form MC prepared and certified by the inspecting officers before registration of a vehicle does not contain the provision which asserts that the dimensions of the body are in accordance with the specification given in the prototype certificate. Hence, the Government have decided to implement Form MC in a new format. In the new format a new item is added as item No.3 and item No.4 is excluded from the existing Form MC. By adding such a provision, it can be ensured that the body of a vehicle is built strictly in accordance with the prototype certificate specified under rule 126 of the Central Motor Vehicles Rules, 1989.

The notification is intended to achieve the above object.
